Models of Comfort

Is the name fittingly applied to the elegantly equipped passenger coaches, parlor and sleeping cars that make up the trains running between **New York, Philadelphia** and **Buffalo** and **Niagara Falls,** on the

Lehigh Valley Railroad

and to complete the enjoyment of a trip that—by the use of every modern approved appliance in the construction of their cars that human skill and ingenuity can devise for making these rolling palaces home-like—is surrounded by all the creature comforts attainable in railway travel, the route is through a region of

Unrivalled Scenery

including historic valleys, mountain heights, rushing rivers and placid lakes.

All through day trains carry dining cars, serving

Meals à la Carte

on which a passenger may order what he or she may choose, from a cup of coffee to an elaborate meal, and pay only for what is ordered.

For illustrated descriptive books on this route or information as to rates of fare, etc., send your address, with four cents in stamps, to **Charles S. Lee,** Gen'l Passenger Agent, New York.

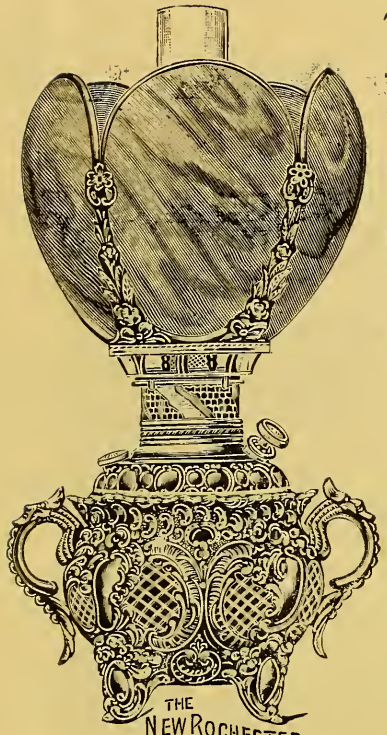
The Lamp that Lasts



THE NEW ROCHESTER
No 576½
No 100 BENT GLASS GLOBE

THE

NEW ROCHESTER.

FIFTEEN years ago we began the manufacture of centre draft lamps. A dealer bought one of the first and has had it in his show window every day since, lighted. That lamp is good to-day.

Soon after the Rochester was demonstrated a success a host of imitations sprang up. A few of the better ones still survive; but the rest of them, where are they?

One New Rochester in a home is but a beginning. Soon there will be others. Do you want to know why? Write or call on

Wright's Engraving House,

PHILADELPHIA.

For a quarter of a Century this establishment has been known throughout the country, especially amongst Educational Institutions, for the excellence of its engraved work in the way of Invitations of different kinds, Programmes, Menus and general social engraving and fine stationery.

Owing to recent developments in engraving by the aid of Photography, it has become necessary to add a complete outfit in the way of a Gallery and all the Machinery and Apparatus for making half-tones and the other kinds of Photo-Engravings for which there is now so wide-spread a demand.

The additional expense for Rent and Management of the new department is but trifling, so that much lower rates can be made than competitors who are exclusively Photo-Engravers, and who are obliged to make such business pay the expenses of every nature.

WE GIVE AWAY

FOR A LIMITED TIME ONLY, AN **UNABRIDGED DICTIONARY** TO ALL SUBSCRIBERS TO

Chambers's New and Revised Encyclopædia

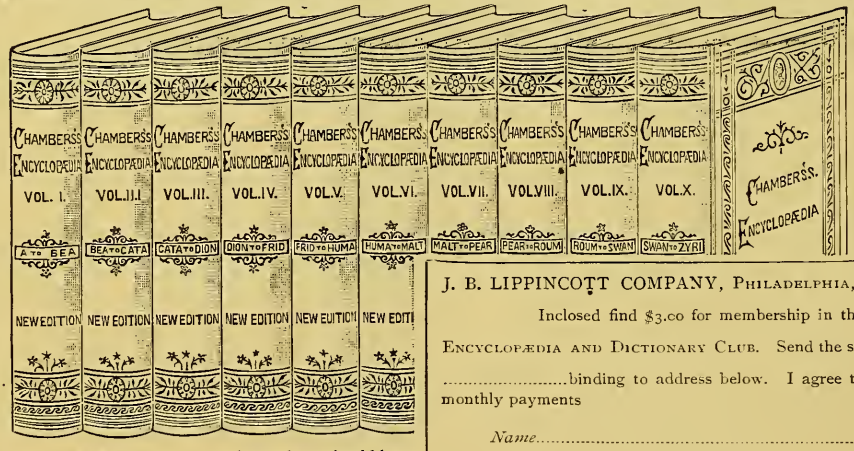
In ten handsome royal octavo volumes, containing over 40,000 Articles, 8,000 Double-column Pages, 3,500 Illustrations, 250 Full-page Plates, 100 Double-page Maps and Charts, is the most modern and practical American Standard Work of Reference upon the market to-day.

Its forty thousand articles are alphabetically arranged, and by a perfect system of cross-reference and bibliography the professional man is able to follow out any subject to any desired extent. **The ripest scholarship, the most careful editorial supervision, the highest typographical art,** have been engaged in the production of this magnificent set of books.

TESTIMONIALS ENDORSING THE WORK reach us by every post, and are volunteered by hundreds of its possessors.

TO THE STUDENT.

"Knowledge is of two kinds: we know a subject ourselves, or we know where we can find information upon it," said Dr. Johnson, the extent of whose knowledge proved that he knew where to find information upon almost any subject. But in Dr. Johnson's time there were not such multitudes of books upon all subjects as there are now. You cannot possibly find time to hunt up all, even the best, books upon any one subject. It was the work of the contributors and editors of the **New Chambers's Encyclopædia** to bring into small compass the knowledge contained in those books, and to prepare it for the use of those who need to obtain any desired fact with the least possible expenditure of time and exertion. To this end, the work is *arranged alphabetically*, and so is ready of reference, it is furnished with valuable maps and illustrations, and with a most complete system of bibliography and cross-references. **Worcester's Dictionary**, also, was prepared to fill the lack of a good, practical, common-sense Dictionary of the English Language. It was more than successful in this aim, and has always stood at the head of its class. Beside a complete system of Orthography, Pronunciation, and Definition, it contains for the student many special aids,—such as Vocabularies of Names, etc. The two works together form an invaluable Reference Library, comprising the features of an Encyclopædia, a Dictionary of the English Language, an Atlas and Gazetteer of the World, and a Biographical Dictionary,—a combination indispensable to every student of Arts, Sciences, History, Theology, or Law.



It is the Work for you.

SIX REASONS

why students should have the **New Chambers's Encyclopædia** and **Worcester's Dictionary.** **1.** Because the information given, even by the best instructors, is often necessarily incomplete, and must be supplemented. **2.** Because a **New Chambers's Encyclopædia** will readily answer questions on all sorts of topics, obviating the inconvenience of a trip to the library. **3.** Because **Worcester's Dictionary** is the standard among American Educators, and has been adopted in the various Departments of the United States Government. **4.** Because the scope of the work is defined only by the limitations of human knowledge. Their field includes all branches of Arts, Sciences, Literature, History and Biography, Theology, and Law. **5.** Because the contributors and editors of both works were carefully selected from the best minds of America and Europe. **6.** Because both works are the best of their respective kinds. Not the least of their advantages is their superiority in material, press-work, and binding, rendering them ornamental as well as useful.

OUR OFFER

For a limited time, **WE GIVE YOU** Worcester's Unabridged Dictionary, handsomely bound, and containing 2,150 pages, as a premium, in consideration of your membership in the "**New Chambers's Encyclopædia Club.**" Cut out the above coupon, enclose it with **$3.00** to our address, and the set of books and Dictionary will be sent immediately. Balance to be paid in twelve monthly payments. These payments are as follows: **Cloth binding, $3.00 per month; Half Russia, $4.00 per month. PRIVILEGE OF RETURN WITHIN TEN DAYS, IF NOT SATISFACTORY.**

REMEMBER, we have but a limited number of premium Dictionaries, and you must avail yourself of the opportunity **AT ONCE.** Further information cheerfully furnished upon application.

We would respectfully call attention to THE PERFECTION FLAT OPENING NOTE BOOK, for which we are general agents to the trade. The Perfection is the acme of mechanical ingenuity. It is the only really flat-opening note book in the market. Notes for a dozen different subjects can be taken in one book and the pages removed and bound in separate manilla covers in an instant. Paper ruled for notes in any subject. Made in six sizes. For a dollar bill we will send two different sizes and guarantee them to last through a four year course.
